AQUILEGIA

Peter Bohlender & Sons

Spring Hill Nurseries

TIPPECANOE CITY, OHIO

Bulbs, deciduous trees, shrubs, etc.

PHLOX

Mr. F. L. Mulford,
Dear Sir:--

You buy trees, plants, shrubs and ornamental stock, and we know you are interested in the best you can get for the money, and stock in that will grow for you after planting. The soil and climatic conditions where our Nursery is located produces this class of stock. After once trying our stock you will be convinced of this fact.

The Bulbs that we offer are grown by one of the best firms in Holland, who pride themselves in the high quality and pure strand of bulbs they furnish us. We could have bought a much cheaper grade of bulbs and quoted them at a less price than quoted on this list, but we did not consider the quality good enough for our trade. We always feel safe in guaranteeing the bulbs we get from them. We would advise planting bulbs as early as possible in the Fall of year, as by doing this you get a much stronger bloom in the Spring.

We are also in position to quote you special prices on stock for transplanting in Nursery rows and are especially prepared to furnish a large list of varieties of the hardiest ornamental stock.

The Myrtle or Vinca Minor that we offer are of good sized clumps which have been transplanted and are well rooted. They are grown especially for cemetery and park use. We would be glad to send you a sample of same at any time.

Give us at least part of your order this year. We wish to prove the above statements to you and there is no better proof than to get our stock and try it out.

Yours very truly,

Spring Hill Nurseries.

Per W.F.B.

BULBS

You cannot have too many Tulips, Hyacinths, Crocus, Narcissus, etc., for your grounds. Always attractive, loved by all. The great mission of these flowering bulbs is to brighten the surroundings before native plant life has appeared.

Our bulbs are of the best selected stock of this seasons crop, no cold storage stock and grown by one of the best firms in Holland.

Tulips mixed, named colors, pink, yellow, red, white and other shades.

Tulips, Single
80 cts. per 100 \$7.00 per 1000

Tulips, Double
85 cts. per 100 7.50 per 1000

Hyacinths, named colors of pink, red, white, and blue and other shades.

Hyacinths, Single
\$3.00 per 100 \$27.50 per 1000

Hyacinths, Double
3.00 per 100 27.50 per 1000

Crocus, Assorted
.50 per 100 4.50 per 1000

Narcissus, Assorted
1.00 per 100 10.00 per 1000

Japan Lilies, Assorted
10 each 10.00 per 100

Bigonia, Tuberous Rooted
5.00 per 100 40.00 per 1000

DECIDUOUS TREES

Deciduous trees that we are offering below are all nursery grown and of the sizes and ages that are best to transplant.

		each	Per 100			each	Per 100
Alder, European	4-5 ft.	20c	\$15.00	Horse Chestnut, Red Flowering	8-10 ft.	75c	
Alder, Cut Leaf	3-4 ft.	15c	10.00	Hackberry	4-6 ft.	25c	
Ailanthus	5-7 ft.	20c	15.00	Ky. Coffee Tree	4-6 ft.	25c	
Ailanthus	6-8 ft.	25c	20.00	Linden	6-8 ft.	30c	
Ash, White	3-5 ft.	15c	10.00	Linden	4-7 ft.	25c	20.00

EVERGREENS

Our Evergreens have been several times transplanted, which insures them to grow.

If you have a building in your park or Cemetery that is bare and unsightly, soften it with foliage. The small evergreen is the thing to plant as they are always bright and attractive and are green all the season through.

Arbor Vitae Am.	1 1/2 to 2 ft.	10 cts.
Arbor Vitae Am.	2 to 3 ft.	15 cts.

PARTIAL VIEW OF PERENNIALS

Hardy Ornamental Grasses

Eulalia Gracillis	5 cts.
Eulalia Zebrina	5 cts.
Eulalia Variegated	5 cts.
Eulalia Japonica	5 cts.
Erianthus Ravenii	5 cts.
Arunda Donax	10 cts.

Every Park and Cemetery has a place where grass will not grow or some hill side that washes or some unsightly place to screen. We grow stock especially for this work. Note the following prices.

Myrtle or Vinca Minor, per clump	\$2.00 per 100	\$15.00 per 1000
Halleana Honeysuckle	7.00 per 100	65.00 per 1000
Japan Evergreen Honeysuckle	7.00 per 100	65.00 per 1000
Euonymus Japonica Evergreen	8.50 per 100	80.00 per 1000

The best tree for quick screen or high hedge and something that will produce effect immediately is the Lombardy Poplar. This tree very few insects or diseases works on. It can be transplanted with but very small loss.

Lombardy Poplar 6 to 8 feet	15 cts. each	\$11.00 per 100	\$100.00 per 1000
Lombardy Poplar 8 to 10 feet	20 cts. each	15.00 per 100	125.00 per 1000
Mulberry 5 to 6 feet	15 cts. each	10.00 per 100	90.00 per 1000
Larch 5 to 6 feet	30 cts. each	20.00 per 100	
Larch 3 to 5 feet	25 cts. each	15.00 per 100	
Alianthus 4 to 6 feet		15.00 per 100	
White Birch 4 to 6 feet	30 cts. each	20.00 per 100	

Other trees that are used for screens or hedges—but slower growers.

Bird Cherry 5 to 6 feet	25 cts. each	20.00 per 100
Common Cherry 3 to 4 feet	15 cts. each	10.00 per 100
Cypress 3 to 4 feet	25 cts. each	20.00 per 100

We are often asked the question whether Fall is a good time of year to plant trees, plants and shrubs. We consider Fall the best time of year for planting if planted late, but would not advise too early Fall planting as the plants are not usually matured when it is necessary to strip the leaves from the plants in order to ship. We get the best results in the Nursery rows by planting the first of November to the first of December, and later if the ground is in condition to plant.
